LAST HALF OF 2015

55%

DECREASE IN BURGLARIES
IN WILSHIRE PARK

ring
Neighborhoods

After installing Ring Video Doorbells on 41 homes in the L.A. neighborhood of Wilshire Park, there was a **55% reduction in home burglaries** from June to December 2015 compared to the same seven-month period in 2014.

“We endorse the technology - this technology helped reduce burglaries by 55% because it does allow a person to maintain an eye on their property and can prevent burglaries from occurring.”

- Captain Vito Palazzolo, LAPD Olympic Division

What is Ring Video Doorbell?

Ring Video Doorbell is a Wi-Fi enabled video doorbell that lets you see and speak with visitors from anywhere, using your smartphone. It has motion detection, an HD camera, and night vision, to give you a clear view from your front door—day and night.

Home security

Most burglars start with a ring on the front door to see if you're home. Ring Video Doorbell sends you real time mobile alerts, even if they don't ring the doorbell itself.

With motion detection and a 180 degree field of view, you can monitor your home and stop crime before it happens.

What does 'Never miss a visitor' mean?

From anywhere in the world, you'll be able to see and speak to whoever is at your front door. The delivery person, home help, gardening services, and even friends and family.

With Ring, You're **Always Home.**
